SKILLS

Design

Graphic, visual, UI and UX design with Photoshop, InDesign, Illustrator inVision and Sketch.

Programming

HTML, CSS, JavaScript, Java, Python, Processing, OpenFrameworks, p5.js, d3.js, AngularJS, SASS.

A FEW PERSONAL PROJECTS

Flatline

A visualization of your social media activity as an electrocardiograph. Written in Processing using the Temboo Library.

You snooze you lose

You set your alarm and if you do not wake up or press snooze too many times then it tweets, emails and/or sends text messages that detail the extent of your indolence to people you indicate.

Chintastic

Select your song, choose a background video, and watch your chin come to life in real-time! Using chroma key (green screen) for a list of moving backgrounds with your chin lip-syncing to a list of songs in the foreground.
